

PROVISIONAL FINAL BUDGET OUTCOME

2013

31st MARCH 2014

INTRODUCTION

The Final Budget Outcome (FBO) Report is released in accordance with the requirements of Section 15 of the Papua New Guinea Fiscal Responsibility Act, 2006.

The purpose of the FBO Report is to provide a report on the budget outcome for each fiscal year. This improves the accountability and transparency of Government financing, and it does so in a timely manner. The 2013 FBO Report aims to provide to Parliament and the public a comparison and explanation of the major variations from the 2013 Budget estimates for total revenue and grants, total expenditure and net lending and the budget balance. It also provides a summary of the National Government financing activities for the financial year and a summary of the National Government debt position, together with comparative figures for the previous financial year.

The FBO covers Central Government fiscal operations in what is known as the Government sector. Consistent with the 1986 Government Finance Statistics (GFS) cash reporting framework, the Government sector is defined as covering all units performing government functions, that is, the implementation of public policy through the provision of primarily non-commercial services and the transfer of income, supported mainly by compulsory levies on other institutional sectors.

Government owned or controlled units, which sell industrial or commercial goods and services to the public on a large scale, are excluded from the government sector and are classified separately as non-financial public enterprises. Government owned and or controlled financial institutions are also classified separately from the Government sector as public financial institutions.

The financial information presented in this report is based on the same reporting standards as the 2013 Budget. Generally this follows the cash reporting standards originally laid down in the 1986 'Manual of Government Finance Statistics' published by the International Monetary Fund (IMF).

It should be noted that as of the 2014 Budget the Government will be transitioning to the more modern and transparent 2001 Government Finance Statistics, meaning FBO reporting will also be done on this basis from then on.

The information presented in this report may not reconcile fully with information published in the Public Accounts as some revenues and expenditures detailed in this report will be reported or classified differently in the Public Accounts. For example, transactions relating to debt are generally reported on a net basis and split into principal and interest components in this report, whereas they are reported on a gross basis in the Public Accounts and not split between principal and interest components.

The information presented in this report is based on the same data used in the preparation of the Public Accounts; however this report is compiled before that data has been subject to independent audit. This report will therefore not include the effects of any adjustments made to the underlying data arising from the audit process. In addition, there are some areas where updated figures will modify the actual outcomes for 2012, such as when reports are finally received from all donors on projects grants, and more reporting is provided on the Infrastructure Tax Credit.

The 2013 FBO is the third (after the 2011 and 2012 FBO) to use the Government's new Integrated Financial Management System (IFMS). As with any new system, there are challenges created by the many changes required.

PART 1

FINAL BUDGET OUTCOME BY FISCAL OPERATIONS

1.1 CENTRAL GOVERNMENT FISCAL OPERATIONS

The Final Budget Outcome for 2013 is a deficit of K2,631.6 million which is 7.6 per cent of GDP. The significant increase from the 2012 deficit outcome of K1,377.9 million which is 4.3 per cent of GDP is a deliberate intervention by the Government to support continued economic growth with expenditures prioritized towards the Medium Term Development Plan (MTDP) enablers particularly infrastructure due to its more immediate impact on future economic growth.

The final budget deficit outcome for 2013 is also reflective of a deliberate intervention by the O'Neill Dion Government to re-appropriate K386 million away from less significant expenditures to investing on uplifting the country's sport facilities to ensure the 2015 South Pacific Games is a memorable event for our visitors and the people of Papua New Guinea

The Final Budget deficit for 2013 compared to the original Budget deficit estimate of K2,548.9 million (7.2 per cent of GDP), is higher by K82.7 million. This is largely reflective of lower Total Revenue and Grants which turned out to be less by K649.2 million and a result of lower tax revenue, non tax revenue, grants and infrastructure tax credits. Project grants and the Infrastructure Tax Credit have an equal and offsetting impact on Total Expenditure and Net Lending so they do not affect the overall fiscal balance. Total Expenditures and Net Lending is also lower by K566.5 million, compared to the original budget estimate which reflects under spends across many investment and development projects. The fiscal outcome for 2013 Final Budget Outcome is set out in the Table 1 below.

Table 1: Budget Balance 2012– 2013 (Kina Millions)

	2012 Outcome	2013 Original Budget	2013 Revised Budget	2013 Outcome
Revenue and Grants	9,566.0	10,481.9	10,481.6	9,832.7
Expenditure and Net Lending	10,943.9	13,030.8	13,218.7	12,464.3
Budget Balance	-1,377.9	-2,548.9	-2,737.0	-2,631.6
% of GDP	-4.30%	-7.20%	-7.90%	-7.60%

Source: Department of Treasury

Towards the end of 2013, Total Revenue and Grants revised estimate remained close to the original Budget estimate of K10,481.5 million. Total Expenditure and Net Lending, on the other hand, was anticipated to be higher than the Original budget estimate at K13,218.7 million. The revised Total Expenditure and Net Lending estimate of K13,218.7 million reflected inclusion under expenditures the K305 million LNG equity which was initially reported under finances, projected lower interest payments and anticipated increases in expenditures relating to costs to the construction of PNG's sporting facilities.

The 2013 budget deficit outcome compared to the revised budget estimate is lower by K105.4 million and is reflective of lower Total Expenditure and Net Lending, as well as, lower Total Revenue and Grants. Although the lower budget deficit outcome for 2013 may be considered a good budget position outcome for 2013, it will mean that the Government has not fully implemented the 2013 Budget as originally planned and that the Government was faced with lower than anticipated Total Revenues and Grants

1.2 REVENUE

Total Revenue and Grants

The total Revenue and Grants outcome for 2013 is K9,832.7 million (Table 1). Compared to the 2012 outcome of K9,566.1 million, total Revenue and Grants has increased by K266.7 million, primarily reflecting growth in collections in Tax Revenue and Infrastructure Tax Credits. These increases have offset declines in Non Tax Revenues and Grants. The Total Revenue and Grants for 2013 is set out in the Table 2 below.

Compared to the original Total Revenue and Grants estimate of K10, 481.6 million, Total Revenue and Grants outcome for 2013 is lower by K649.2 million. This reflects lower Tax Revenue (down by K42.7 million), Non-Tax Revenue (down K235.6 million) as well as Project Grants (down K333.7 million) and Infrastructure Tax Credits (down K32.2 million).

Table 1: Total Revenue and Grants (Kina, Million)

	2012 Outcome	2013 Original Budget	2013 Revised Budget	2013 Outcome
Tax Revenue	8,126.3	8631.2	8605.7	8588.5
Non Tax Revenue	423.2	509.5	534.8	273.9
Grants	1,091.4	1211.2	1211.2	877.5
Infrastructure Tax Credit	63.8	130.0	130.0	92.8
Total Revenue and Grants*	9,704.6	10481.9	10481.6	9,832.7

Source: Department of Treasury

*Includes ITC

The overall shortfall in total Revenue and Grants from the revised Budget estimate is driven mainly by lower than expected collections of total Government Revenue, including an unanticipated shortfall in Non Tax Revenue and a smaller shortfall in Tax Revenue. In addition, lower than expected Grants received from Foreign Donor agencies have also contributed to the overall shortfall.

Tax Revenue

The total Tax Revenue outcome for 2013 is K8,588.5 million. Compared to the 2012 outcome of K8,126.3 million, total Tax Revenue has increased by K462.2 million, reflective of strong growth in Taxes on Income and Profits, Domestic Taxes on Goods and Services and Taxes on International Trade. The Tax Revenue for 2013 is set out in the Table 3 below.

Compared to the original Budget of K8,631.2 million, Tax Revenue is lower by K42.7 million or 0.5 per cent.

Table 3: Tax Revenue (Kina, Million)

	2012 Outcome	2013 Original Budget	2013 Revised Budget	2013 Outcome
Tax on Income & Profits	5,853.1	6215.5	6185.8	6081.3
Dom. Taxes on G&S	1,575.5	1613.4	1721.7	1765.8
Taxes on International Trade	697.6	802.3	698.2	741.3
Tax Revenue	8,126.3	8631.2	8605.7	8588.5

Source: Department of Treasury

The shortfall in Tax Revenue compared to the revised Budget estimate is due to lower than expected collections from Taxes on Income and Profits, offsetting higher than expected collections from Domestic Taxes on Goods and Services and Taxes on International Trade.

Taxes on Income and Profits outcome for 2013 is K6,081.3 million. This increased by K228.2 million from the 2012 outcome due to strong collections in Company Tax and Personal Income Tax which increased by K316.0 million and K159.7 million respectively. Dividend Withholding Tax, Gaming Machine Tax and Other Direct Tax were also slightly higher than 2012 outcome. The increases in these tax heads have offset the declines in Mining and Petroleum Taxes and Interest Withholding Tax which were down by K314.4 million and K28.9 million respectively. The Taxes on Income and Profits for 2013 is set out in the Table 4 below.

The shortfall against the original budget estimate of K6,215.5 million is K134.2 million and is largely reflective of lower Mining and Petroleum revenues which offset increases in personal income tax, company tax and dividend withholding tax.

Table 4: Taxes on Income and Profits (Kina, Million)

	2012 Outcome	2013 Original Budget	2013 Revised Budget	2013 Outcome
Personal Income Tax	2,645.1	2608.0	2740.4	2808.4
Company Tax	1,740.5	1891.5	2061.6	2060.5
Dividend Withholding Tax	176.5	197.3	232.8	244.5
Mining and Petroleum Tax	981.1	1207.5	815.7	666.7
Interest Withholding Tax	67.4	45.1	49.0	38.5
Other Direct	108.8	119.5	115.6	118.1
Gaming Tax	133.9	146.6	170.6	144.6
Tax on Income & Profits	5,853.1	6215.5	6185.8	6081.3

Source: Department of Treasury

Tax on Income and Profits is K104.5 million lower than the revised Budget estimate of K6,185.5 million, driven by lower than expected collections from Mining and Petroleum Tax (MPT). Mining and Petroleum Tax was lower than expected by K149.0 million due to lower than expected commodity prices (Table 3). Slight shortfalls in Gaming Machine Tax (down K26.0 million), Interest Withholding Tax (down K10.5 million) and Company Tax, (down K1.1 million), also contributed to the overall shortfall in Taxes on Income and Profits. The shortfalls in these tax heads have offset the higher than expected collections of Personal Income Tax (up K68.0 million), Dividend Withholding Tax (up K11.7 million) and Other Direct Tax (up K2.5 million).

The stronger than expected growth in Personal Income Tax is reflective of continued strong employment and wages growth in the domestic economy. Continuation of employment of workers related to LNG plant construction has also contributed to the growth in this tax head. However, this is expected to slowdown in line with the project nearing production in 2014.

Domestic Taxes on Goods and Services have increased by K190.3 million from the 2012 outcome, driven by higher GST transferred to WPA (up K207.2 million) due to high collections in provinces combined with low refunds. This has offset a decline of K18.6 million in Excise Tax. The Domestic Taxes on Goods and Services for 2013 is set out in the Table 5 below.

Compared to the Original Budget estimate of K1,613.4 million, this is an increase of K152.4 million. This is a result of stronger collections of Goods and Services Taxes which offset lower collections of Excise duty and other indirect Taxes.

Table 5: Domestic Taxes on Goods and Services (Kina, Million)

	2012 Outcome	2013 Original Budget	2013 Revised Budget	2013 Outcome
Excise Duty	560.5	651.0	606.1	541.9
Goods & Services Tax	1010.0	954.4	1107.5	1217.2
Other Indirect	5.0	8.0	8.0	6.7
Dom. Taxes on Goods & Services	1575.5	1613.4	1721.6	1765.8

Source: Department of Treasury

Domestic Taxes on Goods and Services have increased by K44.2 million from the revised Budget estimate, driven by strong collections from Goods and Services Tax (GST) in provinces and low GST refunds (Table 4). Overall, total GST paid to Waigani Public Accounts (WPA) was higher by K109.7 million. This has offset the shortfall in Excise Duty which was lower than expected by K64.2 million.

Taxes on International Trade outcome for 2013 total K741.3 million. This increased by K43.6 million from the 2012 outcome of K697.7 million, driven by higher Import Duty collections (up K34.2 million) and Export Duty (up K31.8 million). The increase in Import and Export Duty offset a shortfall of K22.3 million in Import Excise. The Taxes on International Trade for 2013 is set out in the Table 6 below.

The original Budget Taxes on International Trade estimate, on the other hand, was over estimated by K61.0 million which assumed all international taxes to increased during the year, however, that was not the case. Excise Duty on Imports was down by K83.2 million, and offset slight increases in Import Duty and Export Duty.

Table 6: Taxes on International Trade (Kina, Million)

	2012 Outcome	2013 Budget	2013 Original Budget	2013 Revised Budget	2013 Outcome
Import Duty	223.0	251.3		240.7	257.2
Export Duty	179.9	195.3		190.0	211.7
Excise Duty on Imports	294.8	355.7		267.5	272.5
Taxes on International Trade	697.7	802.3		698.2	741.3

Source: Department of Treasury

Taxes on International Trade were higher by K43.1 million from the revised Budget estimate due to higher than expected collections of Export Duty (up K21.7 million), Import Duty (up K16.5 million) and Import Excise (up K5.0 million).

Non Tax Revenue

Total Non-Tax Revenue outcome for 2013 is K260.9 million. This compared to the 2012 outcome, Non Tax Revenue is down by K149.3 million or 35.3 per cent. The decline is reflective of nil dividends received from the mining and petroleum sector, offsetting a slight increase in dividends from SOEs (up K5.0 million) and Fees and Charges received from Departments (up K112.5 million). The Total Non Tax Revenue for 2013 is set out in the Table 7 below.

Total Non Tax Revenue for 2013 is lower than the original budget estimate of K509.5 million by K235.6 million or down 46.2 per cent (Table 6).

Table 7: Non Tax Revenue (Kina, Million)

	2012 Outcome	2013 Original Budget	2013 Revised Budget	2013 Outcome
Property Income	172.3	224.8	264.8	55.0
Dividends	50.0	82.0	132.0	55.0
Mining & Petroleum Divids.	122.3	142.8	132.8	0.0
Interest & Fees from Lending	0.1	4.0	4.0	0.0
Other Non Tax Revenue	106.4	144.7	230.0	218.9
Injections from Trust Accounts	144.4	36.0	36.0	0.0
Asset Sales	0.0	100.0	0.0	0.0
Non Tax Revenue	423.2	509.5	534.8	273.9

Source: Department of Treasury

Compared to the revised Budget, the significant decline is due mainly to the nil payment of Mining and Petroleum Dividends and lower than expected dividends from State Owned Enterprises. Of the revised Budget estimate of K132.0 million, only K50.0 million was received from one SOE in 2013. In addition, collections from Departmental Fees and Charges were also lower by K11.1 million, Injections from Trust Accounts were lower by K36.0 million and Interest and Fees from Lending were lower by K4.0 million.

Grants and the Infrastructure Tax Credit

Project Grants outcome is K877.5 million for 2013. This is lower than the 2012 outcome, as well as, the original budget and the revised budget estimates which equal each other and remained unchanged throughout the year. Compared to the 2012 Project Grants outcome was down by K213. 9 million and down by K333.7 million for both the original and revised budget estimates. The Infrastructure Tax Credit (ITC) was lower than expected by K37.2 million from both the revised Budget estimate and the original Budget. Compared to the 2012 outcome the Infrastructure Tax Credit was larger by K29.0 million.

1.3 EXPENDITURE AND NET LENDING

Total Expenditure and Net Lending in 2013 was K12,852.5 million. Compared to the total 2012 expenditure outcome of K10944.0 million Total Expenditure and Net Lending was K1,908.5 million (17.4 per cent) higher, which is reflective of the substantial increase in funding given to the recurrent (up K182.5 million) and development (up K987.0 million) budgets in 2013.

This outcome was, however, K178.3 million (1.3 per cent) lower than the original 2013 budget estimate, mainly reflecting under expenditure in the development budget more than offsetting over expenditure in the recurrent budget.

Table 8: Total Expenditure and Net Lending 2012-13 (Kina Millions)

	2012 Outcome	2013 Original	2013 Revised	2013 Outcome
Service Delivery Expenditure	7,097.2	7,235.0	7,151.1	8,018.7
Development and Capital Investments Expenditure	3,846.8	5,795.8	5,879.9	4,833.8
Total Expend and Net Lending	10,944.0	13,030.8	13,031.1	12,852.5
% of GDP	30.7%	36.6%	37.7%	37.1%

Service Delivery Expenditure (Recurrent Budget)

Service Delivery Expenditure assisted with the provision of ongoing funding for delivery of essential services by the Government. In 2013, increased funding was provided through the Recurrent Budget to support Government priorities and key MTDP enablers including: expanding Tuition Fee Free Education in 2013 to also include Grade 11 and 12, introduction of Free Primary Health care, and improvements in Law and Order infrastructure sectors. The outcome for Service Delivery Funding by Agency is shown in Table 9 below.

Table 9: Total Recurrent Expenditure by Agency Type 2012-13 (Kina Millions)

	2012 Actuals	2013 Original	2013 Revised	2013 Outcome
National Department	3,952.4	4,681.9	4,511.6	5,631.9
Commercial & Statutory Authorities	392.5	380.6	425.9	433.0
Provincial Government	1,346.6	1,414.5	1,455.1	1,388.8
Autonomous Bougainville Govt	75.2	87.0	88.3	80.2
Interest Payments and Fees	433.4	671.0	670.2	484.8
Net Lending	-2.8	0.0	0.0	0.0
Recurrent Expenditure	6,197.2	7,235.0	7,151.1	8,018.7

Source: Department of Treasury

In 2013, recurrent expenditure totaled K8,018.7million. Compared to the 2012 outcome, total recurrent expenditure increased by K1821.5 million, reflecting increased spending by National Departments.

Against original budget estimates the recurrent budget was over spent by K783.7 million (10.8 per cent).As with previous years there continue to be concerns with over spends in the recurrent budget against original appropriations. In 2013 it was driven by over expenditure on goods and services of K1,286.3 million (42.7 per cent) by national departments and K41.4 million (35.8 per cent) by Statutory Authorities compared to the original budget.

Further data on expenditure on goods and services and personnel emoluments for all Agencies are tabled in Part 2 of this document.

Table 10: Total Recurrent Expenditure 2012-13 (Kina Millions)

	2012 Actuals	2013 Original	2013 Revised	2013 Outcome
Goods and Services	3,276.0	3,551.0	3,656.6	4,866.6
National Department	2,557.4	3,015.0	3,067.0	4,301.3
Commercial & Statutory Authorities	392.5	115.8	161.0	157.2
Provincial Government	309.1	398.0	406.1	384.0
Autonomous Bougainville Govt	17.0	22.3	22.5	24.1
Personnel Emoluments	2,490.7	3,013.0	2,824.3	2,667.3
National Department	1,395.0	1,667.0	1,444.6	1,330.6
Commercial & Statutory Authorities	0.0	264.8	264.9	275.8
Provincial Government	1,037.5	1,016.5	1,049.0	1,004.8

Autonomous Bougainville Govt	58.2	64.7	65.8	56.1
Recurrent Expenditure on PE & GS	5,766.7	6,564.0	6,480.9	7,533.9

Source: Department of Treasury.

Total expenditure of the Autonomous Bougainville Government was K80.2 million. Compared to the 2012 outcome, recurrent expense for ABG increased by K5.1 million (11.9 percent) .reflective of increased funding for Goods and Services.

Against the original budget, ABG under spent by K6.8 million(7.8 per cent), due to a K8.6 million (13.3 per cent) under spend on personal emoluments.

Total Interest Payments and Fees in 2013 was K51. 4 million (11.9 percent) higher than the 2012 outcome, primarily reflecting increased interest payments, especially under domestic financing as a result of consecutive budget deficits.

Nevertheless, Total Interest Payments and Fees wereK186.2 million (27.7 per cent) lower than the original Budget estimate. This reflected the effect of high liquidity on the demand for domestic issuance, resulting in lower than expected interest rates.

Development and Capital Investments Expenditure

Total Development Budget expenditure in 2013 was K4,833.8 million. Compared to the 2012 outcome, Total Development Budget expenditure increased by K987.0 million (25.7 percent), reflective of increased spending under Domestic Funds (up K1,041.0 million), Infrastructure Tax Credits (up K29 million) and Concessional Loan Drawdown's (up K130.9 million).

Against the 2013original budget, the outcome was K962 million (16.6 per cent) lower. Factors contributing to the lower than expected outcome for the Development Budget include; under spends in domestic funds, the slow and limited draw down rates for concessional loans, under utilization of tax credits and under reporting for both project grants and concessional loans.

The table below shows the different expenditure heads under the Development Budget and their outcomes for 2013.

Table 11: Development Budget 2012-13 (Kina Millions)

Source of Funding	2012 Actuals	2013 Original	2013 Revised	2013 Outcome
Domestic Funds	2,374.4	3,810.8	3,894.3	3,415.4
Project Support Grants	1,091.4	1,211.0	1,211.2	877.5
Infrastructure Tax Credits	63.8	130.0	130.0	92.8
Loans	317.2	644.0	644.4	448.1
<i>Concessional</i>	<i>317.2</i>	<i>644.0</i>	<i>644.4</i>	<i>448.1</i>
Commercial				
Total Development Budget	3,846.8	5,795.8	5,879.9	4,833.8

Source: Department of Treasury.

Against the 2012 outcome domestic funds spending (GoPNG Development Budget component) was K1,041.0 million (43.8 percent) higher. This was driven by an increased allocation for Infrastructure spending and other key priorities under the Alotau Accord.

Expenditure on Domestic Funds was K395.4 million (10.4 per cent) lower than the original budget estimate. This underspend may be a reflection of the slower expenditure from line

agencies as well as the enforcement by the Department of Planning and Monitoring on implementing Agencies to present monthly cash flows and project work programs, before the release of additional funding.

Table 12 below summarizes the Domestic Funds for the three different sector aggregates: National Government Departments; Commercial Statutory Authorities; and Provincial Governments. Details by individual agency/entity are provided in Part 3.

Table 12: Development Expenditure on Domestic Funds 2013 (Kina Millions)

	2012 Actuals	2013 Original	2013 Revised	2013 Outcome
National Department	1,392.1	1,370.1	1,378.4	1,477.4
Commercial & Statutory Authorities	661.0	495.0	577.8	566.9
Provincial Government	321.3	1,945.7	1,938.1	1,371.1
Total Domestic Funds	2,374.4	3,810.8	3,894.3	3,415.4

Source: Department of Treasury.

In 2013, spending by National Departments was K85.3 million (6.1 per cent) higher than the 2012 outcome. This was mainly driven by increased allocations for infrastructure development funding especially under the Department of Works.

Overall there was overspending of Domestic Funds by the National Departments of K107.3 million (7.8 per cent) against the original appropriations.

Commercial Statutory Authorities (CSA) reported spending K94.1 million (14.2 percent) less than the 2012 outcome and a K71.9 million over spend against their 2013 original appropriation for Domestic Funds.

Against their original appropriation those Commercial Statutory Authorities (CSA) that reported a number of over spends, are the National Development Bank (K75.0 million); National Airports Corporation (K5.0 million); Office of Coastal Fisheries Development Agency (K2.8 million; and the Research Institute (K2.0 million).

Provinces spent K1049.8 million (326.7 percent) more than their 2012 outcome, reflecting the Governments move in the 2013 Budget to provide increased and direct funding to the lower levels of Government.

Provinces reported under spends of K574.6 million (29.5 per cent) against their original appropriations which may be due to the lack of capacity to implement, especially at the district and LLG levels.

Project Support Grants were K333.5 million (27.5 per cent) lower than the original budget estimate of K1, 211.0 million. The lower than anticipated outcome was due to the lag in reporting of project support grants.

For Project Grants, the outcome of K877.5 million includes figures from AusAID, the World Bank and NZaid with AusAID being the largest contributor with K867.7 million (71.6 per cent).

Infrastructure Tax Credit expenditure was K37.2 million (28.6 per cent) lower than the original budget estimate. This under-spending has become a general trend across the scheme as this is caused by the lengthy deliberations and project proposal assessments for project submissions by companies involved in the scheme.

For concessional loans, only K448.1 million of K644.4 million available was drawn-down for the implementation of the Development Budget in 2013, indicating that (30.5 per cent)

of the concessional loans available were not utilized. The key reasons for this were capacity issues; lengthy procurement processes; and poor coordination and consultation between government agencies and donor partners.

2013 Supplementary Budget

Parliament passed the 2013 Supplementary Budget of K379.8 million in November 2013. The Supplementary Budget provided for the reallocation of K379.8 million from some 2013 Budget items to make funding available for the completion of the 2015 SP Games facilities (K315.8 million), the cost of Power Generators (K50 million) and the 2014 Melanesian Arts Festival (K14 million). Although, the reallocation did not affect total 2013 expenditure at the aggregate level, it did affect expenditure outcomes at the project level.

As all of these funds needed to be spent before 31st December 2013, it was not feasible to obtain this outcome with around one month of 2013 remaining. As a result, only K64.0 million was spent directly through the recurrent budget and the rest were earmarked for payment into trust accounts.

1.4 FINANCING

The performances of Total Revenue and Grants, and Total Expenditure and Net Lending have led to a budget deficit for 2013 of K2,631.6 million or 7.6 per cent of GDP.

The significant increase from the 2012 deficit outcome of K1,377.9 million which is 4.3 per cent of GDP is a deliberate intervention by the Government to support continued economic growth with expenditures prioritized towards the Medium Term Development Plan (MTDP) enablers particularly infrastructure and the purchase of K305 million equity in the LNG project due to their more immediate impact on future economic growth. The large deficit and the PNG LNG equity were financed from both external and domestic sources of funding.

The 2013 budget deficit outcome compared to the revised budget estimate is lower and although the lower budget deficit outcome for 2013 may be considered a good budget position outcome for 2013, it also means that the Government has not fully implemented the 2013 Budget as originally planned and that the Government was faced with lower than anticipated Total Revenues and Grants during the year.

External Funding

Total Concessional Loan draw downs amounted to K448.1 million for 2013. This is K106.0 million higher than the 2012 Outcome and K196.6 million lower than the original and revised Budget estimates that remained unchanged at K644.7 million. The External Borrowing for 2012 to 2013 is set out in the Table 13 below.

Table 13: External Borrowing 2012-13 (Kina Millions)

	2012 Outcome	2013 Original	2013 Revised	2013 Outcome
New External Borrowing	342.1	644.7	644.7	448.1
Concessional financing	342.1	644.7	644.7	448.1
Commercial Financing	0.0	0.0	0.0	0.0
Exceptional Financing	0.0	0.0	0.0	0.0
Repayment of Principal	164.3	168.7	168.7	169.9

Net External Borrowing

177.8

476

476

278.2

Source: Department of Treasury

The lower drawdown than the original and revised Budget estimates is due to delays in the implementation of a number of underlying projects. Repayment of principal on external loans was K169.9 million which is K5.6 million or 3.4 per cent higher than the 2012 Outcome and K1.2 million higher than the original and revised Budget estimate. This performance resulted in net external financing of K278.2 million for 2013.

Domestic issuance in 2013 totaled K6,914.6 million which comprise K5,498.9 million in Treasury Bills and K1,415.7 million of Inscribed Stock. Treasury Bills were used to fund the K305 million shortfall in the State's equity purchase in the PNG LNG Project. Repayment of principal was K4,188.0 million in 2013 comprising of K4,049.8 million of Treasury Bills and K138.3 million of Inscribed Stock. The Domestic Borrowing for 2012 to 2013 is set out in the Table 14 below.

Domestic Funding**Table 14: Domestic Borrowing 2012 – 2013 (Kina Millions)**

	2012 Outcome	2013 Original	2013 Revised	2013 Outcome
New Domestic Borrowing	4,076.9	5,741.6	6,712.8	6,914.6
Treasury Bills Financing	3,470.2	3,520.6	5,296.8	5,498.9
Inscribed Stock Financing	606.7	816.0	1,416.0	1,415.7
Other Domestic Financing	-	1,405.0	-	-

Source: Department of Treasury

In summary, the Government's Net Borrowing for 2013, more or less reflected the performance of Total Revenue and Grants, and Total Expenditure and Net Lending in 2013. The Summary of the Net Borrowings for 2013 is set out in the Table 15 below.

Table 15: Summary of Net Borrowings 2013 (Kina Millions)

	2013 Outcome
FINANCING	
Net Domestic Borrowing	2,726.5
Net Foreign Borrowing	278.2

Debt Service

Total Debt Service comprises of repayment of Principal and Interest. In 2013, repayment of principal was K4,357.9 million comprising of K 169.9 for external debt and K4,188.0 for domestic debt. The Interest and Fees for 2013 is set out in the Table 16 below.

Total Interest and fees paid in 2013 was K484.8 million comprising of K42 .1 million for external debt and K442.7 million for domestic debt. Total interest paid was K186.4 million lower than the original Budget estimate.

Table 16: Interest and Fees (Kina Millions)

Total Interest and Fees	671.2	(1.0)	670.2	484.8	(186.4)

Source: Department of Treasury

1. Inscribed Stock is a bond instrument that pays semi-annual coupons. Investors who purchase Inscribed Stock are entitled to receive a full coupon on the next coupon date, despite not holding the bond for the full 6 month coupon period. In recognition of this, an element of the proceeds received on issuance is for the interest that has accrued on the bond up to the date of issuance. The proceeds for accrued interest are treated as an interest offset to reflect the true interest cost on the bond.
2. The difference between the proceeds received on issuance and the bond's face value plus accrued interest is the net premium on issuance.

1.5 PUBLIC DEBT

The level of total public debt is K11,880.3 million at the end of 2013, which is higher than the 2012 outcome (up K3,010.5 million), the original budget estimate (up K1,307.7 million) and the 2013 revised estimate (K388,7 million).. The Public Debt for 2012 to 2013 is set out in the Table 16 below.

The level of domestic debt is K8,844.8 million at the end of 2013, this is K2,726.5 million above the 2012 outcome, K563 million above the original budget estimate and K201.4 million above the 2013 revised estimate. The increase in domestic debt levels was mainly due to higher than anticipated Treasury Bills issuance to finance the 2013 budget deficit.

The level of External debt amounted to K3,035.5 million at the end of 2013. This is K284.0 million higher than the 2012 outcome, K744.7 million higher than the original 2013 budget estimate and K187.2 million above the revised budget estimate. The increase in net external borrowing in 2013 is less exchange rate gains.

Lower than anticipated GDP growth also contributed to debt as a percentage of GDP increasing from 27.6 per cent in 2012 to 34.3 per cent in 2013.

Table 17: Public Debt 2012 – 2013 (Kina, Millions)

1.6 SUPERANNUATION

In accordance to Sections 4 and 76 of the Superannuation (General Provisions) Act 2000, the State is obliged to make a mandatory superannuation contribution of an agreed 8.4 percent of the gross salary, individually, on behalf of all its employees, to Nambawan Super Limited (Super).

Since then, due to no budgetary allocations in some fiscal years, the State has incurred superannuation arrears which are yet to be funded. Based on the 2012 Nambawan Super Annual Report, the estimated total unfunded State Share Superannuation liabilities was K1,972.0 million as at end 31 December 2012, which excludes payments that were made in 2013.

The Automation of the State Share Superannuation Contribution program since its inception has been up to date and administratively efficient. This program enables the State to make mandatory superannuation contributions through the government payroll system on a fortnightly basis. A payroll deduction code was created which allows the appropriate amount of superannuation contributions from a budgetary allocation under the Department of Treasury to be remitted to a commercial bank account (operated by the Nambawan Super).

The Automation Process remits yearly State Share Superannuation Contributions allocated in a fiscal year while its superannuation liabilities are paid off manually. In 2013, the Department of Treasury, on behalf of the State manually paid a bout K141.9 million in superannuation payments (Table 18). This comprised exit payments of K82.0 million and K59.9 million in arrears.

In 2014, Treasury has allocated K190.0 million towards the State's Superannuation obligations.

Table 18: State's unfunded superannuation liability and Payments (Kina Million)

*K120 million was put aside for automation.

1.7 TRUST ACCOUNTS

The purpose of holding funds in Trust Accounts is to spread spending over time to control demand and inflationary pressures on the economy, as well as to give time to implementing agencies to properly design implementation strategies to execute projects.

Since 2005, up to and including the 2013 Budget, a total of K7270.2 million has been paid into Trust Accounts for implementation of the Government's priority programs. The vast majority of this comprises appropriations from Supplementary Budgets and Additional Priority Expenditure. Table 12 provides a summary on the movement of funds in and out of Trust Accounts from 2005 to 2013.

Table 19: Source of Funds for Trust Accounts: 2005 – 2013 (Kina Million)

Year	Deposits from SBE & APE(1)	Deposits from Annual Budgets & Interest	Spending from Trust Accounts	Net Savings (Deposits less Spending)

2005	400.0		0	400.0
2006	568.4		0	568.4
2007	1,283.0		76.0	1,207.0
2008	1,501.40	36.5	480.5	1,057.40
2009	0	627.2	2,365.90	-1,738.7

2012	0	690.0	1,389.3	-699.3
2013	0	450.0	537.1	-326.0

Source: Department of Treasury and Department of Finance

Table 13 below shows that the opening balance for Supplementary Budget Trust Accounts at 1 January 2013 was K628.1 million. Total receipts for the period 1 January to 31 December 2013 of K515.2 million from deposits from the Budget. The closing balance of Budget Funded Trust Accounts as at 31 December 2013 was K612.6 million.

Total expenditure from Budget Funded Trust Accounts in 2013 was K537.1 million or 2.2 per cent of GDP. In current kina terms this represents the lowest Trust Account expenditure since 2008.

It is expected that the use of trust accounts will be phased out over time as a result of the introduction of multi-year budgeting and the establishment of the Development Fund within the PNG Sovereign Wealth Fund.

Under the previous Medium Term Fiscal Strategy 2008-2012 (MTFS), Government spending of additional mineral revenue (comprised of spending from additional mineral revenue deposited into trust accounts and additional priority expenditure) was to be limited to a maximum of 4 per cent of GDP per annum.

The revenue rules have changed significantly under the new MTFS 2013-2017. The Government has now passed an Organic Law to establish the PNG Sovereign Wealth Fund (PNG SWF). The PNG SWF includes a Stabilization Fund, and it is the deposit and withdrawal rules for this Stabilization Fund that effectively replaces the "excess minerals revenue" rules of the previous MTFS. The purpose of the SWF Stabilization Fund is to provide a buffer for PNG from the high price volatility of the mining and petroleum sector while at the same time ensuring that the Government has access to the revenues it receives from the mining sector. The SWF's deposit and withdrawal rules will come into place only when the country's mineral revenues exceed the 15 year long term moving average of resource revenue as a share of non-resource revenue. All mineral revenues below this will be transferred from the Stabilization Fund to the Government's Budget.

Table 13 shows the movements in Trust Accounts for the period 1 January to 31 December 2013.

TOTAL	628.1	515.2	537.1	612.6

The Government of PNG appropriated K450.0 million into trusts funds through the normal 2013 Budget process and another K315.8 million in the 2013 Supplementary Budget for the 2015 South Pacific Games. However, a delay in the issuing of the warrant meant that this K315.8 million was not subsequently deposited into the 2015 Pacific Games Trust account in 2013. Payment in to the Trust Account is planned for 2014.

There were also some movements between trust funds recorded over the course of 2013, with K39.4 million having been re deposited into the Transport Sector from the CPG Special Project Trust following an NEC Decision in 2013.

Following is a summary of expenditure for Supplementary Budget (Budget Funded) Trust Accounts for the period 1 January – 31 December 2013 where more than K5.0 million was expended:

- **K5.5 million was spent from the Higher Education Sector Infrastructure Rehabilitation Trust Account** for infrastructure maintenance of the four (4) government funded universities.
- **K6.1 million was spent from the Kokopau to Arawa Road Upgrading and Bitumen Sealing Trust Account.**
- **K10.0 million was spent from the Trans Sepik Highway Trust Account** for the maintenance and upgrading of the Highway.
- **K6.5 million was spent from the Rehabilitation of Housing for Police Trust Account** for the maintenance and upgrading of Police houses around the nation.
- **K127.3 million was spent from the District Service Improvement Program Trust Account** for implementation of the District Services Improvement Program around the 89 districts of PNG during this
- **K7.2 million was spent from the Highlands Highway Rehabilitation** during this period in relation to rehabilitation of the Highlands Highway.
- **K58.3 million was spent from the PNG LNG High Impact Infrastructure Trust** during this period in relation to impact projects associated with the LNG project in the Southern Highlands and Hela Province.
- **K5.8 million was spent from the Tuition Fee Free Education Trust Account** during this period in relation to providing free education to all primary schools and subsidizing all secondary schools.
- **K237.0 million was spent from the 2015 Pacific Games Trust Account** during this period in relation to the design and construction of stadiums, aquatic centre and games villages within Port Moresby city.

- **K42.9 million was spent from the ABG Restoration and Development Grant Trust** during this period in relation to impact projects associated with the ABG Restoration and Development program in the Autonomous Region of Bougainville.
- **K7.9 million was spent from the Trade Skills Scholarship Trust** in relation to the TVETT programs during this period.

District Service Improvement program (DSIP) Trust Accounts

DSIP Trust Accounts are designed to fund priority expenditure programs in the Districts. A total of K1,789.0 million has been appropriated to the DSIP Trust Accounts over the period 2006-2013.

As at 31 December 2013 the combined balance of the 89 District subsidiary bank accounts still held at BSP was almost K64.6 million. The total DSIP balance reported in Table 14 reflects both the K1.0 million held in the primary account at BPNG and the amounts held in the subsidiary trust accounts.

These accounts will soon be closed pending Cabinet approval.

Table 14 shows the movements of funds for the period 1 January to 31 December 2013 for each of the 89 DSIP subsidiary Bank Accounts.

Table 21: Movement of funds for the period 1 January to 31 December 2013 for each of the 89 DSIP Subsidiary Bank Accounts.

PART 2

FINAL BUDGET OUTCOME BY AGENCY

2.1 INTRODUCTION

Part Two (2) of the Final Budget Outcome discusses the actual expenses incurred by each agency compared to the Appropriation available to the Agency as at the close of the financial year on 31 December 2013 for the Recurrent Budget. The Final Available Appropriation (FAA) represents the original budget plus or minus any transfers made under either Section 3 or 4 of the 2013 Appropriation Acts.

When assessing Agency performance in Part 2 of the Final Budget Outcome, the FAA is compared to the actual expenses incurred by agencies. This recognises that Section 3 is for unforeseen expenditure. Section 4 of the Appropriation Act provide for the transfers of appropriations between agencies as approved by the Secretary of Treasury. These transfers can occur after the publication of the relevant budget documents. As a consequence it is possible that agency appropriations for 2013 will not be consistent with figures published in the 2013 Budget papers or in Part 1 of the 2013 Final Budget Outcome.

It should also be noted that the 2013 Budget was still based on having a separate 'Recurrent' and 'Development' Budget and the 2013 FBO reports on this basis accordingly. As part of the Budget modernisation process, however, the Government plans to integrate the 'Recurrent' and 'Development' Budgets into a single National Budget from 2014 onwards. Final Budget Outcome documents will therefore also report on this basis from 2014 onwards.

The Final Available Appropriation by agency type is shown below:

Agency Type	2013 Original Appropriation Published in 2013 Budget Papers	Section 3 Transfers	Section 4 Transfers	Final Available Appropriation as at 31 December 2013	Total Expenditure as at 31 December 2013	Underspent (Overspend)
National Department	3,339,609,046	26,991,800	1,021,754,092	3,751,789,246	4,746,929,477	(995,140,231)
Commercial & Statutory Authorities	380,647,900	-	(129,731,700)	425,922,300	433,006,512	(7,084,212)
Miscellaneous Expenditure	1,342,333,200	336,613,000	1,414,517,774	759,799,200	884,902,803	(125,103,603)
Debt Services	671,189,300	-	(1,000,000)	670,189,300	514,293,727	155,895,573
Provincial Government	1,501,456,522	-	(134,615,100)	1,543,430,922	1,468,980,490	74,450,432
Total	7,235,235,968	363,604,800	2,534,334,466	7,151,130,968	8,048,113,009	(896,982,041)

Note: The figures in the table above do not account for Amortisation of K3.523 billion.

2.2 OVERVIEW

The Recurrent or the Operational Budget is responsible for funding the ongoing delivery of the essential services of the Government. Funds appropriated in the Recurrent Budget caters for teachers and expenses for teaching our children, employing health workers, maintaining our roads and many other services which are important to all PNG citizens. The Recurrent Budget delivers these services by providing funding to Government Departments, Agencies and Provincial Governments approved for Personnel Emoluments (PE), Goods and Services (G&S) and managing Government Debt.

For 2013 the total revised Recurrent Budget was K7,151.1 million. This includes interest payments and excludes amortisation from Debt Services. The total Recurrent expenditure is K8,048.1 million resulting in a net overspending of K897.0 million. National Departments including Miscellaneous expenditures are leading the overspending with K964.3 million or 108%, Statutory Authorities (CSA) with K7.1 million or 1% and Provincial Administrations for the first time with a net underspend of K74.5 million or -8% (an underspend) although there are overspends within individual provinces in both PE and G&S. For the first time, 73% of Provincial Administrations are taking control of their PE expenditure resulting in a net underspending of K54.1 million in their PE.

The K897.0 million net overspending is made up of K943.4 million or 105% overspending in total G&S and K46.4 million or -5% underspending in total PE.

National Departments are responsible for 102% or K967.0 million of the G&S overspending while Provinces and Statutory Authorities are responsible for -2% or K23.5 million underspending in G&S. In addition, for the first time provinces are showing improvements in managing their payrolls resulting in them being responsible for 116% or K54.1 million in underspends for total PE underspends. Statutory Authorities however overspend in their PE by K10.3 million. Underspending in PE was mostly from the Provincial Governments. *Details are contained in Table 20, 22 and 23 in the following pages.*

Although there are under spends in the other agency categories, CSA's net total showed an over expenditure of K10.3 million in PE. *Details are contained in Table 19 and 21 in the following pages.*

2.3 RECURRENT BUDGET OUTCOME BY AGENCIES

Variations in Agency Appropriations can occur during the Budget Year through new appropriations via transfer of funds and Supplementary Budgets (there was one Supplementary Budget in 2013). These movements are provided for under Section 3 and 4 of the Appropriations Act. When comparing Original Budget and Final

Available Appropriation (FAA) which includes all transfers to agencies up to and including 31 December 2013.

Attachment A identifies expenditure performance by agency.

2.3.1 Personnel Emoluments

Personnel Emoluments – National Departments

National Departments underspent on Personnel Emoluments (PE) in 2013 by a net of K2.6 million although there were few National Departments that overspent on their PE. There were instances of overspends in Overtime and Payroll related Expenditure of about K117.3 million. However, this was netted of with underspending of K120.0 million in other areas of PE. In many cases, this was due to unbudgeted staffing cost, impact of salary awards and/or a failure to exercise appropriate controls over PE expenditure. Against these overspends, a number of agencies recorded underspends as a result the net underspend by National Departments was K2.6 million.

Table 20 shows overspendings and underspending of greater than K1.0 million in personnel emoluments and goods and services expenditure by National Departments.

A full list identifying personnel emoluments expenditure by National Department is at **Attachment B**

Table19: The Final Available Appropriation by agency type with breakdown into Personnel Emoluments and Goods and Services.

Personnel Emoluments – Commercial & Statutory Authorities (CSA)

Statutory Authorities had a total Revised PE Appropriation of K285.3 million in 2013. CSAs had a total net over spending of K7.1 million attributed mostly to PE over spends. They over spent PE by K10.3 million. The over expenditure can be attributed to changes on the salary scales within individual agency and unbudgeted salary changes. Table 21 below shows the details of this information.

Table 21: Overall Recurrent Final Available Appropriation consisting of Total Expenditures and (Over)/Under Expenditure for Commercial & Statutory Authorities (CSA) under Personnel Emoluments and Goods and Services categories greater than K1.0 million.

Commercial & Statutory Authorities	Initial Appropriation	Final Available Appropriation	2013 Outcome	(Overspending Underspending)

Personnel Emoluments – Provincial Governments

Provincial Governments had a net underspent on Personnel Emoluments (PE) by K54.1 million although there are overspending at individual provinces. The individual over spends were primarily relating to spending on Teachers' salaries which comprises of 36% of the provinces.

The possible reasons for the over expenditure on Teachers' Salaries in some provinces might be, to some extent, the result of teachers' movements during the year, under budgeting of teachers' awards and a payroll issue where more than one person being paid on a single teaching position.

The overall net under expenditure of Personnel Emoluments (PE) reflects to some extent the devolution of human resource powers to Provincial Administrators allowing them to monitor their human resources and also as a result of payroll cleansing activity done by most of the provinces.

Table 22 shows details of overspendings and underspending in Personnel Emoluments and Goods and Services expenditure by Provincial Governments greater than K1.0 million.

Attachment C identifies the full listings of Personnel Emoluments by Provinces.

Table 22: Provincial Governments Personnel Emoluments and Goods & Services Overspend and Underspend of greater than K1.0 million.

Provincial Government	Initial Appropriation	Final Available Appropriation	2013 Outcome	(Overspending) Underspending

2.3.2 Goods and Services

Goods and Services (G&S) is comprised of the operational expenses of Government and includes the costs of purchasing medical supplies and equipment, the payment of education subsidies, essential maintenance of Government facilities such as roads and bridges.

In 2013 G&S expenses relative to appropriations were overspent by K943.4 million, primarily due to lower than forecast spending across a number of agencies.

Goods and Services – National Departments

National Departments overspent on total Good and Services (G&S) in 2013 by K967.0 million. Rentals were overspent by K71.4 million, Grants and Transfers to Public Authorities by K26.3 million, Construction, Renovation and Improvement by K41.2 million, and unbalanced expenditures of K1,034.2 million. Note that huge over expenditure is the result of expenditures that have incurred without proper accounting treatments. All other Goods and Services items were under spent. Details of agency spending are at **Attachment D**.

Goods and Services – Provincial Governments

Consistent with the funding arrangements arising from the Review of Intergovernmental Financing Arrangements (RIGFA), which were passed by Parliament in 2009 the National Government provided K428.6 million in grants to Provinces with K425.0 million being spent resulting in a net underspend of K3.6 million. Almost 94% or K3.4 million of this under spending is on Primary Production Grants. Although there was an overspending on Goods and Services Grant to ABG of K1.5 million other underspends netted off to give an overall net underspend of K3.6 million.

Table 23 in the next page shows details of Provincial Administration Grants expended in 2013.

Attachment E shows the details of goods and services by Provincial Governments.

Table 23: Total Spending by Grants in Personnel Emolument and Goods and Services – Provincial Governments

Provincial Grants	Initial Appropriation	Final Available Appropriation	2013 Outcome	(Overspending) Underspending
Personnel Emoluments	1,033,049,022	1,062,629,422	811,923,164	250,706,258

Town/Urban Services Grants	3,718,300	3,718,300	3,718,300	-
Village Courts Grants	5,780,900	5,780,900	5,780,900	-
Grand Total	1,453,283,722	1,491,258,122	1,236,848,351	254,409,771

Goods and Services – Commercial Statutory Authorities

In 2013 funding to Commercial and Statutory Authorities (CSA's) were provided and reported in economic items similar to National Departments. This sector of the Recurrent Budget recorded an overspending of K7.1 million for 2013 against a FAA of K425.9 million. This over spend is from the Personnel Emoluments (PE) components of the grants to the Statutory Authorities.

Expenditure by agency is shown in **Attachment F**.

Goods and Services – Debt Services

In 2013 Debt Services underspend by K156.0 million. The underspending was primarily due to Domestic Interest Payments being underspent by K148.5 million not as expected.

Table 24 on the next page shows the details of Interest Payments.

Table 24: Details of Debt Services Interest Payments and Fees excluding Amortization.

	2013 Original Appropriation	Other Transfers	2013 Final Available Appropriation	Dec Outturn	(Over)/Under
INTEREST PAYMENTS AND FEES	671,189,300	(1,000,000)	670,189,300	514,232,018	155,957,282
Domestic	627,368,500	(1,000,000)	626,368,500	477,911,134	148,457,366
External	43,820,800		43,820,800	36,320,884	7,499,916

PART 3

DEVELOPMENT BUDGET

FINAL BUDGET OUTCOME BY AGENCY

3.1 OVERVIEW

The following tables Attachments F1 to F3 below summarize the (GoPNG) Domestic Funds component of Development Expenditure. Details are separately reported for the 2012 outcomes for the National Government Departments (Attachment F.1), Commercial Statutory Authorities (CSA) (Attachment F.2) and Provincial Governments (Attachment F.3). The Summary Table at the end of this section sums up the total figures for (Attachment F.1), (Attachment F.2) and (Attachment F.3) together.

The Variance column is the difference between the Revenue Appropriated by each entity and the 2013 Outcome (the Report final expenditure). Figures in brackets indicate a net underspend.

Discussion on the performance of the agencies is provided in Section 1.3 of the FBO.

3.2 Attachments (overleaf)

Attachment F.1 - 2012 GOPNG Domestic Funded Projects by National Department (Kina)

Division	2013 Budget Appropriation	2013 Final Appropriation	2013 Outcome	Overspend (Underspend)
202 Office of Governor-General		1,000,000		(1,000,000)
